## How to Determine Linen Sizes

For a Round Table: Take the diameter of your table (30", 36", etc,) decide how much of a drop (how far down cloth will hang) you would like. Multiply the drop X 2 and add the total of that to the diameter of the table. For example: If you have a 30" Round table and would like a tablecloth with a 15" drop you would multiply:  $15 \times 2 = 30$  and add that to the diameter of the table  $30 + 30 = 60$ " Round Tablecloth.

## Linen Sizing Tips

Table Size	Tablecloth Size	Drop
72" Round	132" Round	To the Floor
60" Round	120" Round	To the Floor
48" Round	108" Round	To the Floor
30" Round	90" Round	To the Floor
